## Fall Arrestor HWS 18

Art.-No.: 41-HWS18

### Dimensions & weight:

Cable length	Length (L)	Width (B)	Depth (T)	Carabiner (L <sub>k</sub> )	Weight
18 m	540 mm	220 mm	97mm	140 mm	6.9 kg

### Properties & fields of application:

- ▶ Aluminium housing with galvanized steel rope: Especially resistantly against welding flames and sparks, fire, acids, caustic solutions, heat, cold, damp and other extreme situations.
- ▶ Turn-hook hanging which stops the cable from twisting.
- ▶ Steel rope: Has been successfully tested for horizontal use and a fall over the sharp edge simulated from this.
- ▶ Compact construction and low weight: Mobile use with medium to large working radius.

The IKAR fall arrestor has been tested over the edge in fall testing.
