

SitePoint

THE PERFECT MOBILE DISPLAY SOLUTION

THE SITE DISPLAY ISSUE

- » Static, disorganised, out of date and incomplete information compromises the intended engagement with users.
- » Poor visibility and accessibility of compliance information, tools and PPE can be a problem on busy sites.
- » Metal and wooden stands offer limited durability, are prone to corrosion and look unsightly at the end of life.
- » Time is wasted when response kits are misplaced or unable to be moved near incidents.
- » Ability to reuse information and response stations between sites to ensure consistency, save costs and reduce waste is often overlooked.

INTRODUCING

SitePoint

THE PERFECT MOBILE DISPLAY SOLUTION

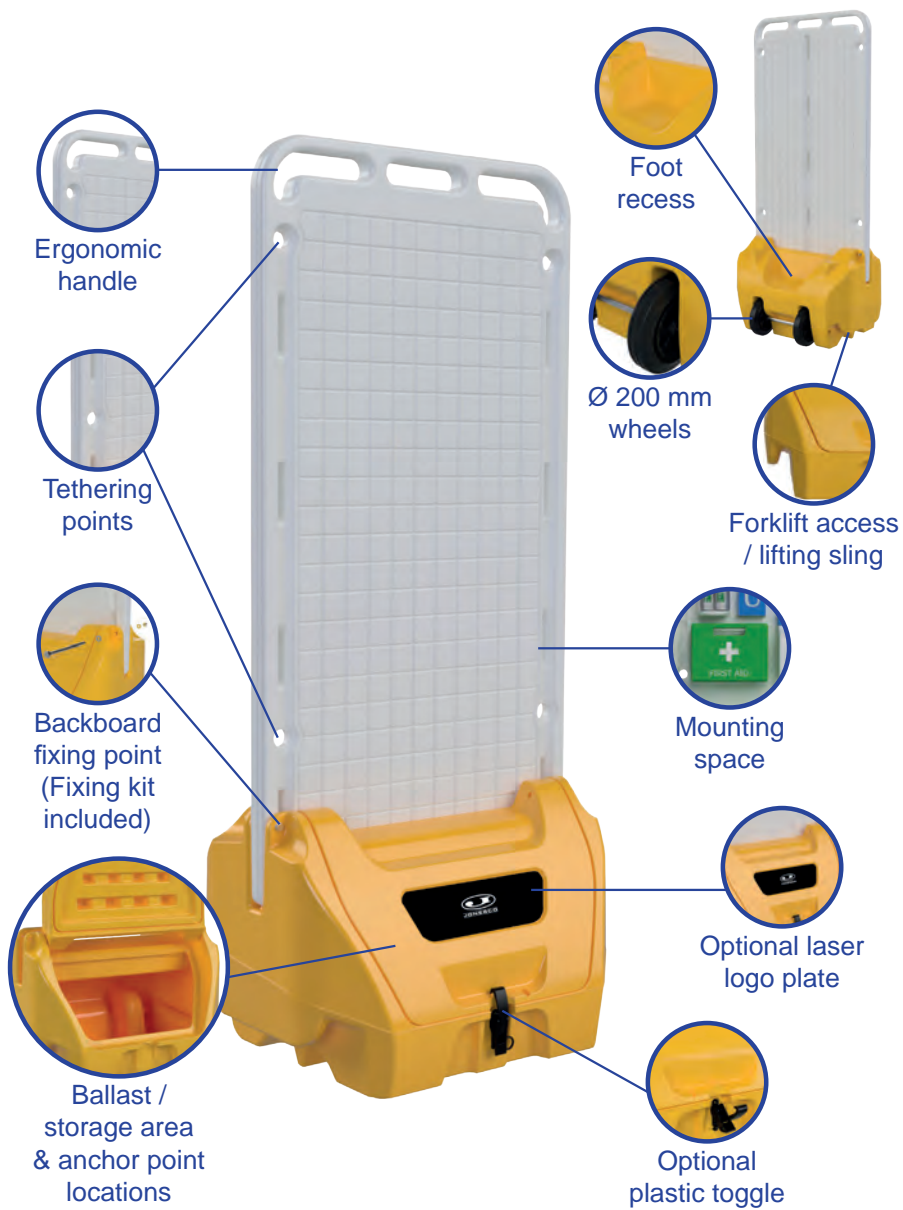

Free standing, fully recyclable, polyethylene multi-purpose unit.

- » Supports temporary or permanent responses for all types of indoor and outdoor applications.
- » Highly customisable panel for display of signage, accessories and PPE equipment.
