

InstantFOAM™

Alcohol Foam Hand Sanitizer

PRODUCT DESCRIPTION

Perfume-free and dye-free, hypoallergenic alcohol-based foam hand sanitizer to kill 99.999% of many common germs when used properly.

WHERE TO USE

Healthcare, food handling and any other work environment or public area where a higher level of hand hygiene is required.

INSTRUCTIONS FOR USE

- Apply directly to dry and clean hands
- Rub across all areas of hands until dry
- No rinsing required

FORMAT: FOAM

FEATURES	BENEFITS
InstantFOAM™ Formula	Highly effective formula is fully tested and proven to eliminate up to 99.999% of many types of common germs when used properly.
Does not Contain Gelling Agents	Unlike alcohol gel sanitizers, the product does not contain gelling agents that leave the hands feeling sticky, particularly after multiple uses.
Pleasant to Use	The rich foam is extremely pleasant for frequent use in-between hand washing, encouraging maximum compliance.
Clinically Proven Skin Friendly Formula	Independently tested and proven to prevent skin dryness even after frequent use.
Skin Hypoallergenic	Formulated to have low allergic potential to the skin and assessed by an independent toxicologist to be declared as “skin hypoallergenic”.
NSF E-3 Rated ³	Complies with the NSF International standards for Nonfood Compounds / Handwashing products (Category Code E3).
ECOLOGO™ Certified ¹	This product is certified to meet EcoLogo UL 2783 Standard for Instant Hand Antiseptic Products. EcoLogo certifications are voluntary, multiattribute, life cycle based environmental certifications that indicate a product has undergone scientific testing, auditing, or both, to confirm its compliance with such standard. EcoLogo UL 2783 Standard sets criteria for product formulation and manufacturing, and human health & environment toxicity. For more information and to view the specific standard, visit UL.com/EL .
USDA BioPreferred Certified ²	This product is USDA Certified Biobased and contains 100% USDA certified biobased content. The USDA BioPreferred Program® is a voluntary initiative to provide assurance that product contains a certified amount of biobased ingredients are third-party tested and verified and monitored by the USDA. The USDA Certified Biobased Product label is a certification mark of the U.S. Department of Agriculture. For more information, visit www.biopreferred.gov .

The USDA Certified Biobased Product label is a certification mark of the U.S. Department of Agriculture. For more information, visit www.BioPreferred.gov.

SUITABLE FOR FOOD HANDLING

The product use as per usage instructions, does not influence the quality and safety of foodstuffs.

InstantFOAM™ has been assessed using the HACCP hazard analysis methodology. The following critical control points were identified and are controlled as follows:

1. Impact on smell and taste of foodstuffs - The formulation has been independently tested according to Sensory Analysis - Methodology - Triangle Test ISO 4120:2007 and proven to not have the potential to taint food.
2. Possible toxic effects of ingredients - An independent oral toxicological evaluation was performed and concluded that any foodstuffs which may contain trace amounts of the product, are unlikely to cause any adverse toxicological effects.

NSF E-3 Rated

InstantFOAM™ complies with the NSF International standards for Nonfood Compounds / Hand Sanitizing Products (Category Code E3).

PRODUCT SAFETY ASSURANCE

Skin Compatibility Test

Clinical dermatological tests have been conducted to assess the skin compatibility of the product using voluntary test persons in enclosed and repeat application models. These tests, as well as in practical use, have proven that the product has very good skin compatibility.

Product Application Test

10 persons applied the product 10 times. Skin hydration was assessed using a Corneometer®, and by visual evaluations performed prior to the first application, and after product applications 1, 5 and 10. InstantFOAM significantly improved visual skin condition. The skin moisture content increased significantly throughout the 10-application series (Bioscience Labs, 2010).

Toxicological Approval

The product has been independently assessed for human toxicity and product stability. It is declared safe for intended use, meeting all relevant regulatory requirements.

Skin Hypoallergenic Risk Assessment

The formulation has been assessed by an independent toxicologist to be formulated in such a way as to provide either minimal or no risk of provoking an allergic skin response and thus meets the requirements for being described as 'Skin Hypoallergenic' (Delphic Solutions Ltd, UK).

Allergy sufferers should always refer to the ingredient list before using the product.

COMPATIBILITY TESTS

Glove Compatibility

In independent testing, the use of InstantFOAM™ in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using EN 455-2:2009 test methodology.

CHG Compatibility

The compatibility of InstantFOAM™ with CHG was tested using a Health Care Personnel Hand Wash procedure. In this test, Deb InstantFOAM® did not significantly influence the efficacy of CHG (Bioscience Labs, 2010).

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow Current Good Manufacturing Practice (cGMP) and/or Cosmetic GMP requirements.

All raw material used for production undergo a thorough quality control process before being used for manufacturing in our high quality products.

All finished goods are subject to intensive quality testing before being shipped out to our customers.
