

911572: THULIT-S3 ESD

Lightweight ESD safety shoe in a sporty design with S-lock lacing system. The upper is made in smooth nubuck leather with a breathable "San Dry" membrane. The outsole is made of double PU with a light profiled sole for better flexibility. The safety shoe is anatomically shaped so the foot can move naturally. The shoe is with aluminum toe cap, protective fiber midsole and ProNose for extra durability. Added to this is a comfortable and shock absorbing support EnerG insole for better comfort.
